

The Community Farm Wholesale Customer Information

We deliver between Tuesday and Fridays and offer competitive rates on organic produce, with an excellent range of our own produce, grown on our grade-one land sitting above Chew Valley Lake, just outside Bristol and Bath. Our growers are out picking all week to ensure we deliver the freshest produce possible. We also have longstanding working relationships with a small group of excellent organic suppliers locally, as well as nationally and internationally.

We send out a weekly price list on a Thursday afternoon which details our wide-ranging offer of fresh produce, chilled and ambient products for the following week. We'll always tell you who has grown the produce and where it's come from. With a small £50 minimum order spend, our customers can order up to 12pm the day before their deliveries. Order by phone, by text, by email – we're as flexible as our customers need.

As well as supplying great quality produce, we love working with our wholesale customers to provide marketing materials so you can make the most of your relationship with us. We can share regular updates about what happens on the farm, as well as specific information on different crops such as where and how it's been grown, as well as who has been involved in growing it, if it has been grown here on the farm. Our dedicated Content Creator can also work to deliver bespoke photography and video content detailing our partnership.

About The Community Farm

The Community Farm is a not-for-profit, community-owned, organic farm. Every year we welcome more than 1,500 local people onto the land and involve them in a better food and farming system. We farm organically because we believe it's the best farming system for our health, local wildlife and the climate. The good news is that it tastes better too.

We look forward to hearing from you soon, don't hesitate to get in touch if you have any questions or if you'd like to visit the farm. It really is a magical place.
